SIEMENS

## Data sheet 6GK5907-4UA00-0AA0

SCALANCE CLP 2 GB W700 client iFeatures. removable data storage medium for activating iFeatures and supplementary functions in SCALANCE W devices in client mode. can be used for easy device replacement in case of failure, for recording configuration data, and firmware can be used in the following products with CLP slot: SCALANCE W700 Wi-Fi 5 and Wi-Fi 6

| | |
|---|---|
| **product type designation** | |
| product brand name | SCALANCE |
| product type designation | CLP 2GB W700 Client iFeatures |
| product description | removable data storage medium for activating iFeatures for SCALANCE W in client mode and for simple device replacement in an error case |
| Technical Product Detail Page | https://i.siemens.com/1P6GK5907-4UA00-0AA0 |
| suitability for use | activation of SCALANCE W iFeatures, e.g. iPRP, iPCF-2, etc. |
| suitability for operation | SCALANCE W devices greater than or equal to Wi-Fi 5 |
| **ambient conditions** | |
| ambient temperature | |
| ● during operation | -40 ... +85 °C |
| ● during storage | -40 ... +85 °C |
| ● during transport | -40 ... +85 °C |
| relative humidity | |
| ● at 25 °C / without condensation / during operation / maximum | 95 % |
| protection class IP | IP20 |
| **design, dimensions and weights** | |
| width | 17.5 mm |
| height | 7 mm |
| depth | 32 mm |
| net weight | 3.1 g |
| product feature / conformal coating | No |
| **product features, product functions, product components / general** | |
| storage capacity | 2048 Mibyte |
| **standards, specifications, approvals** | |
| MTBF | 343 a |
| range of validity / for MTBF determination | at 25 °C |
| **standards, specifications, approvals / Environmental Product Declaration** | |
| Environmental Product Declaration | Yes |
| global warming potential [CO2 eq] | |
| ● total | 1264 kg |
| ● during manufacturing | 0.92 kg |
| ● during operation | 0.34 kg |
| ● after end of life | 0.0042 kg |

## security information

| | |
|---|---|
| security information | Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement - and continuously maintain - a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7) |

## Approvals / Certificates

| General Product Approval | | | | | Environment |
|---|---|---|---|---|---|
| CE EG-Konf. | EAC | RCM | CE EG-Konf. | China RoHS | EPD |
